

PMBC

Plastic Flowmeters

LIQUID

GAS

OVERVIEW

Operation

- Float measuring principle

Application

- Pilot plants
- Water treatment
- Pharmaceutical industry
- Chemical Processes
- Heat treatment

Features

- Small size
- Low cost
- Easy readable scale
- Easy installation
- Low pressure drop
- Vertical position
- Weight: 75 gr

■ OPERATING DATA

Operating pressure,max : 10 bar
Temperature limit : -10°C... +60°C
Accuracy : ±3% full scale

■ OPERATING DATA

Fluid Water : 3-250 L/H & 10-1000 cc/min & 0.2-65 G/h
Flud Air : 0.1-600 L/H & 50-1000 cc/min &
0.1-6 NM³/H & 0.5-200 SCF/H

Note:

L/H (Litter per hour)

cc/min (cc per minute)

G/H (Gallon(us) per hour)

NM³/H (Normal cubic meter per hour)

SCF/H (Standart cubic feet per hour)

■ MATERIALS

Wetted parts material : Polycarbonate(PC) O-RingViton(standart)

Valve material : SS316 & POM

Valve material : SS316 & POM
